

EDUCATION

B.S. in Software Engineering | *Florida Gulf Coast University*

Spring 2026

- GPA: 3.81 | Dean's List x3 | President's List x2
- Entrepreneurship Minor | Honors First-Generation College Student

EXPERIENCE

Backend Engineer Intern | *BoomBox*

Summer 2024 – Summer 2025

- Collaborated with a student-founded startup building a community-driven music social app
- Built 3+ RESTful API endpoints using JavaScript to support new features and enhance experience
- Optimized PostgreSQL with Prisma database structure, improving query performance and reliability.

PROJECTS

IMPOSTURE | *ShellHacks 2025*

Fall 2025

- Developed a real-time desktop app in a team of 4 that monitors posture and provides recommendations
- Built computer vision pipeline utilizing Google MediaPipe and YOLOv11 for pose and phone detection
- Implemented Google ADK to create 3 agents that analyze posture, detect phones, and monitor noise
- Integrated Google Cloud Logging for real-time data streaming recording over 38,000 rows of user data
- Achieved Top 11 overall and 2nd place in Google Cloud ADK Featured Challenge among 1400+

RoundReady

Fall 2023 - Present

- Designed and built a mobile app to streamline emergency procedures for on-call resident assistants
- Engineered backend systems and workflows utilizing JavaScript that reduced incident response times
- Founded RoundReady LLC and secured \$3,000 through FGCU's Runway Program for development

CAMPUS AND COMMUNITY INVOLVEMENT

2nd Place OneEthos Hacker | *KnightHacks 2025*

Fall 2025

Hacker | *Hackabull 2025*

Spring 2025

- Built full-stack mobile app in 36 hours using React Native, Node.js/Express, MongoDB, and Gemini AI

Pitch Winner | *Runway Program*

Spring 2025

- Participated in a semester-long startup incubator program to develop and pitch RoundReady

Top 20th Hacker | *ShellHacks 2024*

Fall 2024

- Placed Top 20 out of 250+ projects with finance mobile app using SQLite3 and Yahoo Finance API

Hackathon Organizer | *CSSEC EagleHacks*

Spring 2024 – Present

- Led organization of two hackathons with 100+ hackers, 7 sponsors, and \$23K+ raised
- Secured \$23K+ sponsorship from Arthrex, Eightpoint, and Kingland through grant applications
- Improved event format based on feedback, growing reach and preparing to host 200+ hackers for 2026

Learning Hub Fellow & Ambassador | *U.A. Whitaker College of Engineering*

Fall 2023 – Present

- Tutored 450+ hours across 4 core courses, helping students in Python, C++, algorithms, and OOP

President | *Computer Science & Software Engineering Club*

Fall 2022 – Present

- Scaled Weekly club meeting attendance from 20 to 45 members, leading a 10-person board
- Coordinated guest speakers from Microsoft, Arthrex, Kingland, Hertz, and Eightpoint

Member | *Society of Hispanic Professional Engineers*

Fall 2022 – Present

- Attended national and regional conferences focused on technical workshops and networking
